Lucy's Clover Cookies

Ingredients:

- 2 cups sugar
- 1 cup butter
- 1 cup milk
- 2 eggs
- 2 tsp. vanilla
- 4 tsp. baking powder
- 5 cups flour

Directions:

Cream together sugar and butter. Add eggs, one at a time, baking powder and vanilla. Alternate adding milk and flour into the mixture until it is well blended. Refrigerate dough for at least one hour. Roll out dough on a floured surface until it's about 1/4 inch in thickness. Cut out cookies with a shamrock cookie cutter or you could use a carrot cookie cutter if a shamrock is not available. Bake cookies on a greased cookie sheet in a 375 degree oven for ten minutes. Top cookies with your favorite frosting recipe, colored green.

Story: Color graphics with markers, colored pencils, chalks, etc. Use flannel, or laminate and cut out and place magnets on back of graphics, etc.

"Learning To Listen" Game: Preparation - Laminate and cut out the cards. Color the game board as desired, being sure to color each of the "Shamrock" spaces green. Cut the "Start" and "Finish" side of the game board along the dashed line. Overlap this sheet on to the other game board sheet, adhering on the back side with tape or glue. Laminate the game board. Color and assemble the game pieces according to the game piece instructions. You will need a die for this game.

Play - Each player places his game piece on the "START" position. The youngest player goes first. The player's turn begins by having an opponent draw a card and reading what is on the card. The player whose turn it is, needs to listen to what is being read very carefully. The player will either have to follow the directions given, or will be asked a question about something the card said. The player is only allowed to have the card read once to them, it cannot be repeated a second time. That is why it is important to listen carefully the first time. If the player successfully follows the instructions or is able to answer the question correctly, the player rolls the die and moves the number of spaces indicated on the die. If the player is not successful in his attempt, his turn simply ends and play rotates to the left. The first player to reach the "FINISH" position is the winner.

Lucy Learns To Listen

It was a warm, spring day around the burrow. All of the animals of the forest were excited.

Mother Bluebird was patiently teaching her newly hatched children about the dangers of getting too close to the edge of the nest. Father Possum was training his two daughters how to hang upside-down without cramping their tails and Mother Squirrel was carefully explaining to her young the difference between good nuts and stale nuts. All of the children of the forest were listening intently to the important lessons their parents were teaching, all of them, that is, except for one.

Lucy was the youngest of the rabbit family. She had twenty-three older brothers and sisters. They were all sitting around Mother Hoppely with their ears perked up, listening to every word. Rabbits are known in the forest for having excellent hearing.

As Mother warned them about the dangers of traps set in the forest, Lucy had better things to think about. She was imagining how much fun she was going to have that day.

After bunny school, Lucy was dreaming about hopping down to the stream and looking for her favorite thing to eat: Honeysuckle flowers. Yum! Lucy loved honeysuckle flowers because they had such a sweet taste.

Soon, Mother Hopley's lesson was over and Lucy had not heard one word she had said. As all of the young animals scurried to school, Lucy's sister, Layla, was asking Lucy all kinds of questions about that night's activities.

They were going to have a carrot roast, but Lucy had better things to think about than answering her sister's questions. She was thinking of her math homework, and she could not remember what the teacher had asked her to do.

Soon, Layla's eyes filled with tears. Lucy had been ignoring her the entire hop to school, but Lucy didn't even notice.

Soon, they were all sitting down in class when their teacher, Mr. Jack Alope began giving instructions for their daily assignments.

All of the bunnies started to sort their clovers into groups of three leaf or four leaf, but not Lucy. She had not been listening to Mr. Alope and soon found herself yet again behind in class. This time, though, she was called in for a teacher-bunny conference.

Mr. Alope said to Lucy, "Lucy I am so worried about you in class. You never turn in your homework and your clover sorting has fallen behind. I think this is because you simply don't listen to instructions. Listening to others is a very important skill. It shows you care about someone when you listen to them when they talk to you. It shows respect for others when you listen to what they say."

Lucy thought about all the times she didn't listen to others. She wasn't even sure what her mother had warned her about this morning and she all of a sudden felt very bad about not listening to her sister.

As Layla and Lucy started their hop home, Lucy was in deep thought about how important listening was, when suddenly Layla began yelling as loud as she could.

Lucy was hopping right toward a rabbit trap. Lucy had not listened that morning when Mother had told them what to look for as they hop. Luckily, Layla was an excellent listener.

She had seen the signs and was able to warn Lucy. Lucy decided then and there that she would use her large ears for good.

It was not long until it was Lucy who could help others with their homework and she could tell Mother what she had learned at school.

DISCUSSION

- Why is it important to listen to our parents?
- Have you had a bad experience because you didn't listen to someone?
- How do you feel when others don't listen to you?
- Sometimes we are not patient with the younger children in our family when they talk. It is very important to give the younger ones as much attention as the older ones.
