

Putt-Putt Golf

This makes a great YM/YW combined activity.

This is a great YM/YW combined activity especially during the winter months.

Before the Activity: Collect Duct Tape, boxes, and other misc stuff to build holes.

Invites: Hand out the week before. (See attached)

Activity: Split into equal groups (around 6 per group or more depending on how large your program is) Give each group 20 minutes to construct a miniature golf hole. They can be elaborate like the one shown, or simple. A simple hole might be a red plastic cup taped to the floor and a few obstacles throughout the room.

Play: Have each group rotate through all the holes. Hand out score sheets. (See attached)

Treats and Closing: Decorate one room to be the clubhouse. Serve any treat of your choice.

If you want to be an overachiever you can make brownie balls and dip them into white chocolate to look like golf balls. We gave out awards like "Best Golf Outfit" "Best Form" etc.

This is one of my son's favorite activities he has done in Young Men's.
