

Hatch Patch Creations

www.hatchpatch.com

Decorations: We used Aspen branches without leaves. First we spray painted them white and then sprayed silver glitter on each branch. Those went in tall vases in the middle of each table along with battery powered white lights. We hung white lights from the ceiling as well as across the stage with garland. We also hung huge paper snowflakes that the committee had made. We were going for more of an elegant look.

Door Prizes: We gave out items that you hold dear through your childhood. For examples: small stockings with chocolate, mugs with hot chocolate, candles. Etc.

Program: We had a very short message from our President about finding the same joy in Christmas that you did as a child. For the main part of the program we made a video. This was time consuming but well worth it. Interview numerous sisters in the ward and have them tell you their favorite childhood memories of Christmas. We even had some World War 11 memories that were fabulous.

Dinner: We assigned out chicken casseroles to the committee. We then provided rolls, salads, etc. It was a fairly easy dinner.

Gifts: As the sisters are leaving hand each sister a brown lunch bag with peanuts, and an orange in the bottom with a few hard tack candies on top. (If this does not bring back childhood memories, then you are too young 😊)
