

MYTH BUSTERS

Relief Society Edition

Come learn the truth
about some of those
pesky household problems.

Welcome:

Everyone loves door prizes. This month we gave away simple items that we highlighted during the night. Lemons, baking soda, etc.

Speaker:

We set up the room like we were filming an infomercial. For the first 15 minutes we had a great time filming our mock "Mythbusters" show. We gave tips on using 5 household items that everyone has to help in cleaning, stain removal etc.

Mini Classes:

I like having 3 different mini classes. The first was "Kids Cleaning." One thing we added to this class was making "Chore Charts" from our "Learning Obedience through Chores" packet. You can also choose classes like "Cleaning while saving your back" "Cleaning on a budget" and "Cleaning without chemicals"

Decorations: We placed vases, test tubes, etc with dry ice around the room

Extra's: We made little booklets with all the fun tips from the evening for them to take home.
