Conference Lingo Bingo

INSTRUCTIONS

Activity Preparation: Color each "Conference Lingo Bingo" card as desired. Laminate the cards and cut sheets in half on the dotted line. Laminate and cut out each game token. If you do not wish to cut out each token, candy can be substituted for game tokens.

Activity: Give each family member a "Conference Lingo Bingo" card and twenty-five tokens.

The game is played by each family member listening to Conference and listening for the words shown on the "Conference Lingo Bingo" cards. If one of the words is heard, family members can place a token on that space. *Note: A token can also be placed on a space if any form of the word is heard.* For example, if the word "pray" or "praying" is heard, a token can be placed on the "prayer" space on the game card. If the word "song" is heard, a token cannot be placed on the music game space.

There are several different versions of Bingo that can be played. The first version is simply five in a row. This can be vertically, horizontally or diagonally. The first family member to get five spaces in a row wins. Have some type of a small prize to award whether it be a treat or something else.

The second version is "X Marks The Spot". This version is played by a player getting a marker in each of the four corners and completing two diagonal lines crossing in the middle.

The third version is "Four Square". This is played by a player placing a marker on each square around the outside of the card.

The last version is called "Blackout". This is played by a player placing a marker on each square on the game card.

At the beginning of conference, determine which version will be played.

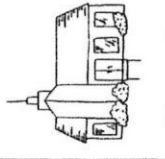

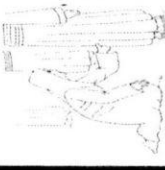

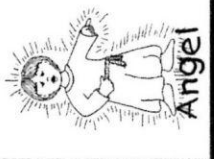

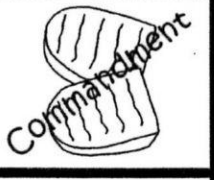

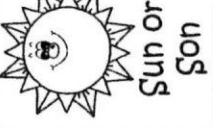

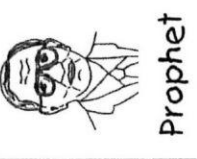

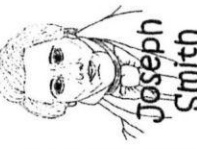

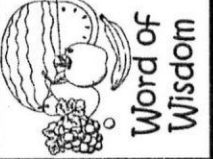

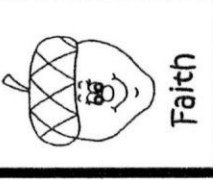

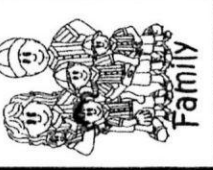

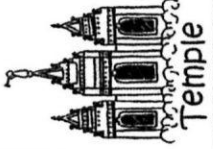

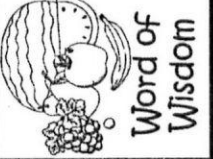

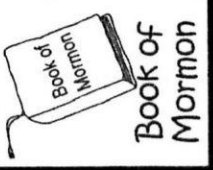

This activity can also be used for Stake Conference or even Sacrament meeting.

HAVE FUN!
