Lehi's Tree of Life Dessert

Ingredients Needed:

- green coconut
- mint flavored ice cream
- tootsie rolls
- black licorice vines
- chocolate syrup
- white chocolate chips or mini marshmallows
- brownies
- wafer cookies
- refrigerated chocolate flavored whip cream in a spray can

DIRECTIONS: This will be a messy but fun and creative way to teach your children all of the elements of Lehi's dream. Ahead of time, place your white coconut in a bag with green food coloring. Shake the bag until the coconut is green. Allow to dry. Begin the activity by giving each child a plate. Have them spread the green coconut on to one area of the plate. The coconut represents the "spacious field." Next, take a brownie and stand it on its end on the plate. The brownie represents the "spacious building." Have each child create the "river of filthy water" with some chocolate syrup by drizzling it across the plate. Along the bank of each child's river, have them stretch their piece of licorice. This represents the "iron rod." To the side of the licorice, make a path with the wafer cookies. The wafers represent the "strait and narrow" path. Somewhere along the path of wafer cookies, allow each child to spray some chocolate whip cream. This represents the "mist of darkness" that can obstruct our view. Now have each child take several tootsie rolls and stand them on their ends, squeezing them together to form the trunk of a tree. Place the tree trunk on the plate. Place one scoop of mint chocolate chip ice cream on top of the tootsie rolls. This represents the "tree of life." And last but not least let the children place white chocolate chips or white mini marshmallows all over their tree. These will represent the fruit. Now let the children eat their masterpieces. ENJOY! (Be sure to tell the children as they are creating their works of art, what each item represents.)

Scriptures: 1 Nephi 15:24, 3 Nephi 12:10-12

Story: Be sure to read Lehi's Dream and become familiar with it. It is found in 1 Nephi chapter 8. Color graphics with markers, colored pencils, chalks, etc. Use flannel, or laminate and cut out and place magnets on back of graphics, etc.

Game: Preparation -Color and laminate the "Tree of Life" game board. Laminate and cut out the "Eternal Life Certificates and all of the game cards.

Play - Divide the family up into two teams. If possible, place an adult on each team. Mix the cards and place them face down in the center of the playing surface. Have each team choose the first "Clue Giver." Determine which team will go first. The "Clue Giver" from the team that will go first draws four game cards from the top of the pile. The "Clue Giver" has one minute to try and get his teammates to say the word or words on each of his four cards. (He may pass on a card at any time and go back to it later during the minute time limit.) He does this by giving clues, but never mentioning anything that is on the card. For example: The key word is: "Iron Rod." The "Clue Giver" could say "The Word of God." Try and encourage the "Clue Givers" to use the representations as clues. This will help the children learn and remember what each element in Lehi's dream represents. Also, if a game card is drawn that has been used previously in the game, play the card. We all learn by repetition, so the more the cards are played with, the better the retention. Once the time of one minute has expired, the team counts how many cards were correctly guessed. It is now the other teams turn. They follow the same procedure that team #1 did. Once both teams have had an opportunity to play four cards, each team reveals how many cards they correctly guessed. Which ever team had the most cards correctly guessed, gets to move on to the "Tree of Life" level. If for some reason there is a tie, a "Sudden Death" round begins. This is done by each "Clue Giver" drawing one card and having twenty seconds to get their team to guess the key word. If guessed correctly, play moves to the other team who draws one card and has thirty seconds to get his team to guess the key word. Play continues until a team does not guess correctly in the thirty second time limit. Once a team has been determined the winner of the round, they will play in the "Tree of Life" round. The "Clue Giver" of that team draws six cards. He has one minute to give clues for all six cards. Once a card has been successfully guessed, the card is placed face up on one of the squares on the "Tree of Life" game board, starting with the bottom row and working towards the top. If all six cards are successfully guessed, the team earns one "Tree of Life" certificate. Mix all of the cards again, and place them face down on the playing surface and start a new round, repeating the same process as above. You may choose different "Clue Givers" for each round. The team with the most "Eternal Life Certificates" wins the game.

Lehi's Dream

The Tree of Life

It was around the year 600 B.C. when a great prophet and his family lived in Jerusalem. This prophet's name was Lehi and his wife was Sariah. The sons of Lehi were called Laman, Lemuel, Sam and Nephi.

In the very first part of the Book of Mormon, we can read the story of Lehi and his family. Being a prophet in those days was very hard for Lehi because no one wanted to listen to him. He talked and talked to the people, warning them that if they didn't repent and stop doing so many bad things that the Lord would destroy Jerusalem and them with it. But no one would listen.

After many months of speaking to the people, the Lord told Lehi to take his family and leave Jerusalem and he did as he was told. They ventured out into the wilderness, taking those things that they would need to survive and leaving all of their worldly possessions behind. This must have been a very hard thing for them to do.

Just like many families, Lehi had children that obeyed his word and loved him and he had children who disobeyed him and caused him much grief. Laman and Lemuel were very difficult sons and caused their father to pray for them constantly.

While on their journey in the wilderness, Lehi was privileged to have a dream that was sent from God. It was a most unusual dream and one that had many great meanings for all of us, even in this century. It is important that we know what Father Lehi's dream was and what it means for it can help us to do those things that will keep us strong in the gospel.

Lets go with Lehi to his dream of the "Tree of Life" (Have each family member follow along in their scriptures)

OBJECT LESSON

Place an object at the far end of the room. Show each of the family members the object and where you have placed it. Choose a family member to be blindfolded. (Make sure that there are obstacles in the way of the path to the object while being careful not to allow the family member to injure themselves while trying to make their way to the object.) Spin the blindfolded family member around two to three times. Ask them to make their way to the object. After the person has stumbled around for a minute, have a string attached to the area where the object is. Have another family member hold the other end so that the string is taut. Carefully guide the blindfolded family member so they can grasp the string. Now tell them to follow the string until they find the object.

Discussion: •How difficult was it to try and find the object on your own?
•Did having the string to guide you make it easier?
(Compare the string to the "iron rod.")
